ALIAS SUMMONS.

IN the Justice Court of Reno Township, in and for the County of Washoe, State of Nevada: The State of Nevada sends greeting to R. B. Simons, alias.

You are hereby summoned to appear before me, at my office, in Reno Township, in the County of Washoe, on the

3d day of February, 1893.

At 10 o'clock A. M. to answer upon the complaint of George M. Emmebury, who uses you to recover the sum of forty-five (\$45) dollars, alleged to be due him for money loaned to you on the 11th day of October, 1892, when judgment will be taken against you for said amount, together with costs and damages, if you fail to appear and answer. To the Sheriff for any Constable, Greeting: Make legal service and due return hereof. Given under my hand this 31st day of October, A. D. 1892. J. J. LYN, Justice of the Peace of said Township.

The Deductory Ode.

Departing from the precedent established when the preliminary arrangement for the recent dedicatory ceremonies were made, it has been decided to pass by the younger aspirants for the laurel wreath and request the veteran Dr. Oliver Wendell Holmes to furnish an appropriate ode for the May Day celebration of the opening of the exposition.

It seems to be the universal opinion of the directors and of the commissioners that the last member of America's first school of great writers should be paid this compliment.

After Miss Harriet Monroe had been commissioned to prepare the dedicatory ode, and until the young lady had herself disarmed criticism, many harsh things were said of the committee's action. In this case it will be impossible for the most exacting to find fault with the choice. This has been the idea of those who have made the decision. No direct promise has been received from Dr. Holmes, still it is understood that if the request is made he will consent to serve the exposition. It is also said that he will make the ode his final masterpiece. —Chicago Inter Ocean.

A Remarkable Decision.

The decision of the New York courts, the other day in favor of the Goddards, granting them the right to illustrate their new style dresses by printing representations of them on the figures of prominent society women, whose faces are so well reproduced that one cannot but recognize them, will strike terror to the hearts of prominent women in the north and everywhere, but if the law says it's right, it's right, and that is all there is to be said about it. If your face appears in a fashion magazine over dress pattern of a gymnasium suit, a full dress costume, or anything else the fashion designer cares to represent in the line of women's clothes, all you can do is just "to grin and bear it" and say nothing at all. —New Orleans Times-Democrat.

An Amusing Newspaper Blunder.

Edmund Yates writes: "One of the most amusing newspaper blunders I have recently met with occurred in connection with the manifestations at Brussels. On the line of the route followed by the procession stands a marble statue of General Belliard, a Frenchman, who fought at Waterloo and died in 1832. Somebody placed a universal suffrage placard in his hand. Upon this the Paris papers, misled by a telegram, announced that the insurgents had attacked the king's guest, seized General Belliard and forced him to carry a sedition placard against his will."

VIRGINIA ST., RENO; NEV

There is a difference of opinion at Washington as to whether it is to the advantage of annexing the Hawaiian Islands to the United States. Some Senators favor annexation if the people of the islands desire it; others favor the establishment of a protectorate. There are many Chinese on the islands, who would be entitled to come to the United States if the islands were annexed, and a large number of natives, who would not make very desirable citizens.

It is said that when the United States secured a coaling station on Pearl river some years ago, it was agreed by England, Germany and the United States, that Hawaii should be permitted to manage her own affairs. The action of England in creating a feeling among the inhabitants of the islands against the United States implies, however, that no such an agreement exists.

The sugar planters, who virtually control the islands, are in favor of annexation. Since the passage of the McKinley bill their business has not been as profitable as it had been previous to that interesting event. For years under a reciprocity treaty with the United States their sugar was admitted free. Now the duty is abolished on sugar from Cuba, Porto Rico and other foreign countries. If the islands were annexed the planters would get a bounty on their sugar and if the bounty law is repealed, as it probably will be under Cleveland's Administration, a tariff will again be placed on sugar. In either event the planters would be gainers. As the islands are on the steamship route to Australia, and are very important from a strategic point of view, and a majority of the white inhabitants are Americans, the United States cannot do less than establish a protectorate over them. The result will likely be, if the islands are not annexed, that a Republic will be established and that the United States will protect it from the interference of European powers.

PASSED THE ASSEMBLY.

The bill to repeal the Act creating the State Board of Assessors and Equalization, introduced by Harris of Douglas, passed the Assembly yesterday by a vote of 26 to 8. Langan of Storey being absent. The Silver party candidates for the Legislature in many counties in the State were pledged to repeal the Act and they simply redeemed their promises to those who elected them by their votes yesterday. Why Speaker Bull, who is a pronounced Silver man, should have taken the floor and opposed the passage of the bill is an enigma.

Notwithstanding the decisive majority for the repeal of the State Board of Assessors Act in the House, it is by no means certain that it will pass the Senate, as the powers that desire to retain it on the Statutes are said to have much more influence in that body than in the Assembly. If people mean what they say there never was a more unpopular Act placed on the Statutes of Nevada than that creating the State Board of Assessors. Governor O'Connell, though he approved the bill, publicly declared in Reno, at the time the Board met here to consider individual raises, that he was opposed to it and it is doubtful if there is a taxpayer in Washoe county in favor of retaining it on the Statutes.

WHAT THE GOVERNMENT SHOULD DO.

The St. Louis Republic, which is beyond question the most influential newspaper in the Mississippi Valley, reflects the sentiment of the masses of the people of that section on the silver question. In a recent issue it has the following unanswerable argument in favor of free coinage.

"The Government ought to cease buying silver bullion as a matter of common sense and common justice. It ought to open its mints and coin all the bullion that is presented for coinage. That will neither 'bull' silver nor 'bear' it, but will restore to it the coinage value taken out of it when its coinage was discontinued. When silver is freely coined there will be no more trouble about getting it into circulation than there is now. The business of the world is very rapidly increasing with the increase of the population and with the progress of invention. We need more money, and there is not gold enough in the world to supply this legitimate demand."

REPEALING THE SPECIFIC CONTRACT LAW.

Senator InGraves has introduced a bill concerning the payment in money of debts and other obligations. It provides that on and after its passage all official bonds and undertakings, and also all obligations of debt, judgments or executions stated in terms of dollars, and to be paid in money, shall be payable in gold coin exclusively, while in the gold bug States of the East they can be paid in legal tender money of the United States, whether it be gold, silver or greenbacks.

When greenbacks were below par, in fact worth much less in gold than silver is to-day, Nevada passed a Specific Contract Act. This Act placed all bonds and undertakings on a gold basis. There are only a few States in the Union that are on such a basis and the silver producing State of Nevada should not be among them. To-day in Nevada all obligations of debt are made payable in gold coin exclusively, while in the gold bug States of the East they can be paid in legal tender money of the United States, whether it be gold, silver or greenbacks.

TELEGRAPHIC NEWS

Matters of Interest From Home and Abroad.

GOV. PENNOYER'S ANSWER.

San Franciscans Favor the Annexation of the Hawaiian Islands.

A BLIZZARD IN THE NORTHWEST.

Congressional.

WASHINGTON, Jan. 31.—The Senate took up the Chandler resolution requesting the President to transmit to the Senate any agreement he may make with the provisional government of Hawaii, and Chandler proceeded to discuss it. "Annex the islands and constitute them a Territory," said Chandler, "and reciprocity trade will double within twenty years. Let the islands feel that they are one and forever under the folds of the American flag, a part and parcel of this great Republic, and new developments will at once take place in the group that will surprise its people and the world. Not to take the fruit within our grasp and annex the group now biding us to take it would be folly indeed—a mistake of the gravest nature, both for the men among us of high commercial views and great enterprise. Let the British lion once get its paw upon the group and Honolulu would be one of the most important strongholds of Great Britain's power. Great Britain will undoubtedly propose a joint arrangement for the government of the islands, but we want none of that—no entanglement alliances. We have had enough of that business at Samoa. We want no joint protectorate, no occupation there by any European power, no Pacific Egypt. We need the group as part and parcel of the United States, and should take what is offered us, even at the hazard of war."

Dolph of Oregon said the time has arrived for well-defined a aggressive American politics and proceeded to read a long statement of the population, trade and commerce of Hawaii. At 3:15 the Senate proceeded to vote on the Anti-Option bill and the bill was passed by a vote of 40 to 29. After the Anti-Option bill had been passed Dolph took the floor and continued the speech he began this morning on the subject of the annexation of the Hawaiian Islands. Most of it was devoted to the question of the Nicaragua ship canal, it having been originally prepared as an argument in favor of the pending bill on that subject.

When he closed the consideration of the Fortification bill was taken up, but no progress was made and the Senate soon adjourned.

HOUSE.

The House resumed consideration of the Sundry Civil bill to-day. When the paragraph making an appropriation to continue the building of the library of Congress was reached, Buloe of Tennessee moved an amendment providing that the preference be given home over foreign products.

Osgood of Massachusetts hoped the amendment would be adopted because it involved such good Republican protective doctrine. The amendment was adopted.

Bland of Missouri gave notice that he would demand to the House the yeas and nays on the amendment, as it was plain to him that a Democratic House which was opposed to protection, should not put its lip up in favor of Tennessee marble and in opposition to Indiana marble.

Bushanan (Rep.) thanked G. D. that this Democratic House, even in a moment of forgetfulness, had done an American thing. [Laughter.]

The House soon afterwards adjourned. Representative Stanford of New York to-day offered the following resolution to the Senate: That the House thinks the time has come when the preservation and extension of our commerce and the upholding of our flag demands prompt action by this government towards the immediate annexation of the Hawaiian Islands to the United States.

The House Committee on Interstate and Foreign Commerce to-day ordered a favorable report on the Senate bill appropriating \$250,000 for the construction of a ship canal to connect lakes Union and Washington with Puget Sound. The bill was reported with an amendment striking out the proposed route of Smith's, leaving the route to be decided upon by the Secretary of War.

Reduced Rates.

New York, Jan. 31.—The policy of the Panama Railroad Company in putting on a line of steamships in opposition to the Pacific Mail has impelled the latter to reduce the passenger rates from \$90 to \$20, and the freight rate from \$9 to \$2 per ton. The significance of this action will be grasped when it is considered that it will be an eight-days' journey to the Isthmus.

This commercial war gains additional significance from the alleged fact that the management of the Panama Railroad Company advertised abroad for foreign steamers to carry freight from New York to the Isthmus.

General Butler's Will.

Boston, Jan. 31.—The will of General Butler was filed in the Middlesex Probate Court. It bears the date of 1854 with a codicil in 1862. All his property is left to relatives, including his wife and mother, since deceased.

Gold in the Northwest.

St. Paul, Jan. 31.—A blizzard raged all over the Northwest last night and to-day and is still at it. Driving snow broke over St. Paul during this morning. Reports from the Northwest are meagre at the Weather Bureau owing to the prostration of wires. Those received show some peculiar freaks of weather. At 8 o'clock this morning at Helena it was 48 above zero, while at Missoula, a little over a hundred miles north, it was ten degrees above. All through Montana the cold was intense. In Portland it was 25 above and in St. Paul 15. In Duluth it was 6 below, at Winnipeg 10 and at Jamestown 9, while at Fergus Falls, Grand Forks and Fargo it was fully 20 degrees warmer. The snow-fall in the Northwest was not enough to cause serious delays, but high winds caused drifts and they delayed the through trains from three to four hours.

This evening the storm is more severe in Dakota and Minnesota and the temperature is rapidly dropping below zero.

Reports received late to-night from many points in the Northwest state that a severe blizzard is raging. "Elendale, South Dakota, reports a severe change. At 8 o'clock this morning it was 14 degrees above and to-night it is 25 below. The schools have been closed, business is at a standstill and a terrific blizzard is raging. It is 20 degrees below at Huron, South Dakota, to-night with a 65-mile gale. Watertown, South Dakota, reports the trains abandoned because of the storm."

Hawaii Matters.

Boston, Jan. 31.—Relative to the Hawaiian question, Rear Admiral Geo. E. Belknap, retired, says: "To the people of the United States the present situation is of momentous interest and vital importance. Indeed it would seem that nature had established that group to be ultimately occupied as an outpost as it were, of the great republic on its western border, and that the time has now come for the fulfillment of such design. The group now seeks annexation to the United States, and the consummation of such a wish would insure to the benefit of both peoples, commercially and politically."

LONDON, Jan. 31.—It is learned on excellent authority that the British government has not instructed the British Minister to the United States, Pendergast, to protest against American interference in Hawaii, as Great Britain does not expect the United States to take any step to which Great Britain is likely to object.

Pennyroyer Shows His Apathy for Cleveland

SALEM, Or., Jan. 31.—Governor Pennyroyer received a letter to-day from Adjutant General Mitchell of the Oregon National Guard asking permission to use two brass cannons belonging to the State for the purpose of firing a salute on inauguration day.

The Governor sent the following reply: "No permission will be given to use State cannon for firing a salute over the inauguration of a Wall Street plutocrat as President of the United States."

City of Peking Still Missing.

SAN FRANCISCO, Jan. 31.—Up to 6 o'clock this evening nothing has been heard of the missing steamer City of Peking, now seven days overdue from Hong Kong and Yokohama. The big tug Fearless went out in search of her this morning and will cruise about four days looking for the Peking. The steamer China is due to-morrow from Yokohama and if she comes in on time and nothing is heard of the Peking the China will be sent out in search of her.

San Franciscans Favor Annexation.

SAN FRANCISCO, Jan. 31.—A special meeting of the San Francisco Chamber of Commerce was held to-day to consider the question of annexation of Hawaii. Resolutions were adopted urging the United States Government to prompt acceptance of the proposed cession and requesting that the naval forces of the United States at Honolulu be augmented during the present political trouble.

An Army for Hayti.

PANAMA, Jan. 31.—It is understood here that an army will be shipped on a trading schooner from New York to aid in the intended revolutionary movement in Hayti, and will be transferred off the Central American coast near Colon to a Haytian vessel. It is also rumored that a prominent Haytian who served under Crespo is going to Jamaica to negotiate the sale of arms with Legation.

Delayed Election Returns.

WASHINGTON, Jan. 31.—Francis M. Malone of Miles City, Mont., arrived at the capital to-day with the delayed election returns from that State. This completes the electoral vote from all the States. A State Department messenger is en route to Montana for the returns.

The Third Arrested.

VISALIA, Cal., Jan. 31.—Joseph Foster the third of the Goheen Station robbers was arrested this afternoon by Sheriff Kay and Detective Smith near Wildflower, Fresno county. All three robbers are now arrested and jailed.

Towed to Mare Island.

SAN FRANCISCO, Jan. 31.—The coast defense vessel Monterey was towed to Mare Island to-day where stores and ammunition will be put on board.

Weather Forecast.

SAN FRANCISCO, Jan. 31.—The forecast for Nevada is fair weather and cooler.

A bill has been introduced in the Legislature to repeal the Act of January 26, 1887, to provide for the destruction of certain noxious animals. This is the coyote, lynx and rabbit bounty Act.

The Appeal seems anxious to rid Carson of some of its marriageable young ladies, and calls their attention to the fact that a number of the Representatives would make desirable husbands.

The electoral vote will be formally canvassed by the two Houses of Congress in joint convention, next Wednesday, February 8th.

A RIVER OF BEER.

A Stream of Beer Lager Turned Into The Truckee.

Last Wednesday, says the Republican, W. L. Cole, Internal Revenue Collector, visited the ruins of the Beem Brewing Co. and caused all the beer remaining in casks, and the barrels to be "spilled." The 5,600 tons of ice that were stored over the cellar saved these casks from burning, and according to law the beer had to be destroyed, as it was unsteamed. There was a river of foaming beer leading down the hill from the brewery, which grew larger and larger as cask after cask was tapped. The trout in the Truckee river must have held high jinks that night, and probably didn't know next morning whether they were snuckers or bull-heads. A mournful assemblage of Socialists stood on the river's bank and with tearful eyes watched the sorrowful waste of the delicious beverage. They solemnly resolved to join the People's Party and see that a change is made in the manner in which this Government and unsteamed beer runs.

Deserves Attention.

If you have money to invest in Reno real estate, either in large or small amounts, the Reno Real Estate and Investment Company offers most particular inducements to you. By investing in its shares of stock you participate in its investments which are governed by its able and experienced Board of Trustees, consisting of Mr. C. T. Bender, Mr. Sol Levy, Mr. C. O. Powning, Mr. Geo. F. Territt and Mr. A. G. Fletcher. The principle object of the company is to purchase and improve centrally located business property in the city of Reno. Everyone is of one mind as to the desirability of such investments.

The company is incorporated with a capital of \$100,000, divided into 20,000 shares of the par value of five dollars each, and from its already large list of share holders there is every reason to believe that it is destined to become one of the most flourishing companies in the State. Of its 20,000 shares there have been 12,000 sold since August last.

Its shares are sold upon the monthly installment plan of ten cents per share, installments to range over a period of fifty months. In this way persons of moderate means are enabled to combine and participate in investments that usually only fall to the lot of the fortunate capitalist. Mr. F. M. Lee, the Secretary of the company, will be pleased to furnish any desired information.

Defeating Disease by the Eye.

It is perfectly possible, by means of the instruments of the Nineteenth century, to exactly learn the optical condition of an eye, to decide just what glasses, if any, are needed for its perfect working, and it is also possible to look in upon it, and by the appearance of its tissues and its blood vessels to decide as to the existence of serious disease when there are few other symptoms that point to it, when there may be none besides to be found in the body that positively prove it.

I may mention two classes of disease, one constitutional and the other local, which illustrate this statement. The eye mirror ophthalmoscope is the instrument by which such things are settled. Bright's disease, a name carrying dread to many a household, is the constitutional disease to which I refer. In not a few cases the diagnosis of it is made by the examination of the retina with the eye mirror.

The expert will make no mistake if the eye gives evidence of it, for its signs are positive in minute bleeding from the blood vessels and peculiar fawn colored spots on the retina. The surgeon dreads to find them, because they are evidence of an advanced stage of the malady which prematurely destroys so many lives. Bright's disease is in fact a degeneration of many of the tissues of the body, the walls of the arteries being among them. In no part of the body can this degeneration be so readily detected as in the retina of the eye.—Cosmopolitan.

The Commissioners of Ormsby have fixed the following tax rate for 1898: School, 35 cents on the \$100; county, 50 cents; interest on Indian school bonds, 8 cents; interest on agricultural bonds, 4 cents; interest on agricultural bonds No. 2, 8 cents.

W. L. Davis, the veteran of the White Pine News, remained in Reno yesterday on his way to Carson. He says times are quiet in White Pine, but it is expected that the sale of the Jackson mine near Ely will make times some livelier.

The goldbug papers are angry because Senator Stewart is prepared to make a two weeks speech, if necessary, to prevent the repeal of the Bullion Purchase Act.

S. B. No. 5—An Act in relation to transferring funds in the Lincoln county Treasury. Read first time and referred.

AFTERNOON SESSION.

Reports of various committees read.

By Norcross—Resolution as follows: "Whereas, The fifteenth session of the Nevada Legislature omitted to call a Constitutional Convention upon the vote cast at the General election in November, 1890, which appears to have been in favor of such Constitutional Convention, and

"Whereas, Twenty-eight amendments to the Constitution of the State of Nevada were passed at said session of the Legislature, and

"Whereas, An unknown portion of the people of this State are still believed to be in favor of a Constitutional Convention, now therefore be it

"Resolved, That it is the sense of this Assembly that a special election shall be called for the purpose of submitting to the people said Constitutional Amendments and for the purpose of electing delegates to said Constitutional Convention;

Provided, That said Constitutional Amendments and said election delegates to a Constitutional Convention shall be submitted in such manner that the elector shall have choice between said Constitutional Amendments and said Constitutional Convention."

Immediately upon the introduction of the resolution the Speaker left the chair and spoke against the resolution, alleging that it was a scheme to defeat the amendments.

Norcross defended the resolution, claiming that it submitted the matter to the people.

Moved by Allen to table the resolution. Ayes and nays called for.

The resolution was tabled by the following vote: Ayes—Allen, Bell, Boston, Carah, Foster, Folson, Hoppin, Hill, Langan, Larnhart, Lochlin, Logan, Moonahan, Melarkoy, Reynolds; 17.

Nays—Foulks, Griffin, Harris, Hamill, Massey, McCarthy, McNaughton, Norcross, Pike, Richards, Russell; 12.

Assembly Bill No. 2, repealing the State Board of Assessors and Equalization Act, came up on final passage. Speaker Bell took the floor and spoke against the repeal of the Act, alleging that the minds of the members had been "poisoned" against it. Other speakers in its favor followed. The bill passed by the following vote:

Ayes—Allen, Boston, Carah, Foster, Folson, Foulks, Griffin, Harris, Hamill, Hoppin, Hill, Langan, Lochlin, Logan, Moonahan, Melarkoy, McCarthy, McNaughton, Norcross, Pike, Richards, Russell; 20.

Nays—Bell, Logan, Reynolds. Adjourned.

THE NATIONAL CAPITAL.

Silver Men Fighting Against the Repeal of the Bullion Purchase Act.

The following from M. S. Bonfield who took the returns of the electoral vote of Nevada to Washington is published in the Silver State:

I have taken in the town and hours are easy on that score. Will leave for the West soon. Think of stopping at Chicago to see if I can't sell the old Virginia log cabin in which I was born as an exhibit at the Columbian exposition. It ought to bring a good price as it is intact. It is worth more than Grant's—his was made of logs, with sides hewed off with a broad ax, while in mine there was no waste, as it is made of round logs, and was not even "notched and saddled." It was built before the Iron Age when we had no metallic axes. The logs being whole there is no waste of wood, and I don't know why I can't sell it to a Chicago syndicate for more than Grant's—besides, Grant was not born in his log cabin, but I was in mine.

SENATOR STEWART.

The friends of silver are delighted with the vote of Nevada for Stewart. I doubt if any Senator, ever before received the unanimous vote of the Legislature—if any I fail to recall the circumstances. He occupies the proudest and most independent position of any man in the Senate. He is making good use of his position. He is flooded with letters from every section of the Union commending his independent stand for silver, and is urged to come to this place and that address the people on the silver question. He will spend next Spring and Summer in speaking upon this the greatest question before the country. He will visit the South and Middle Western States.

DISCUSSION.

About the 10th of February he will enter into a joint discussion with Mr. Hoar, the editor of the New York Tribune, through the columns of that paper.

HON. FRANCIS C. NEWLANDS.

And Gen. A. J. Warner are in the fight with coats off and sleeves rolled up. They are writing and sending by the ton silver literature all over the country. Mr. Newlands is using his influence with weak-kneed silver Democrats and Republicans in Congress to stiffen up their backbones against the powerful goldbug lobby now in Washington. There are a great many silver Congressmen like the Democrats and Republicans of Nevada, who think more of their party than they do of principle, and who would sell out their State for an office or for coin. If the Sherman Resolving Act could be passed off this session, the friends of silver will stir up such a silver sentiment in the country that it is hoped that the pressure will be so great that the next Congress will not dare to legislate against silver. Newlands, Stewart, Warner, Tauboneck and other leading silver men are blending all their energies to maintain the Sherman Act at present and organize the silver sentiment of the country with such force and power as to force the next Congress to pass a free coinage bill, or failing in this then to sweep the country in the Congressional elections in 1894.

SCHOOL TEACHERS' CERTIFICATES.

An Act to Regulate the Granting of Them.

The following bill, introduced by Assemblyman Larnhart of Storey, relating to the granting of certificates to teachers in the public schools is now before the Committee on Education:

SECTION 1. No second grade certificate shall be granted except upon examination before a legal Board of Examiners, in the studies prescribed in this Act, and no certificate shall be issued by any one under eighteen years of age.

Sec. 2. No first grade certificate shall be granted except to persons having had one year's experience in teaching in a public school in the State of Nevada, or two years' experience in another State, excepting Normal School graduates, of this or other States, or other institutions of approved learning, who shall be granted a first grade certificate on their diplomas. All other persons must pass a satisfactory examination in the studies prescribed in this Act.

Sec. 3. Any person having a second grade certificate and complying with the requirements of this Act, by passing a satisfactory examination of the studies additional to a second grade certificate, required for a first grade certificate, be granted a first grade certificate.

Sec. 4. The studies required for a second grade certificate shall be: Reading, spelling, writing, United States history, geography, grammar, arithmetic, physiology and the sciences and art of teaching.

Sec. 5. The studies required for a first grade certificate, in addition to those of the second grade, shall be: Algebra, chemistry, civics, Constitution and School Law of Nevada, philosophy, general history, mental philosophy in its relation to the teachers and his or her profession, and such other studies as the State Board may designate.

Sec. 6. This Act shall be in force and take effect from and after its passage.

TO BUSINESS MEN.

The Wankon Democrat is credited with this realistic parody: "You'd scarce expect one of my age in merchandising to engage, and hope to get a paying trade, without the local paper's aid. And yet I did that very thing; I opened up my store last Spring—this month the sheriff took my stock and sold it from the auction block. Don't view me with a scornful eye, but simply as I pass by, 'There goes the man who seems to think he has no use for printer's ink.' There is a truth as broad as earth and business men should know its worth; 'tis this, the public always buys its goods from those who advertise."

The Juvenile Band discoursed sweet music at the skating rink last evening, and as a consequence the skaters had an enjoyable time. Gas is being used for fighting purposes now, and the heat from the many burners makes the hall comfortably warm.

ABSOLUTELY PURE

THE OUTLOOK FOR WOOL.

It is Bright At Present.

The annual circular of Thomas Donigan, Son & Co. just issued, has the following relative to the wool industry for the year 1892:

The year 1892 starts in well, so far as wool industries and wool interests are concerned. Stocks of good domestic wool are light East and West, manufacturers have a splendid trade, jobbers in dry goods are doing well, and on the Pacific coast we have a magnificent season in prospect. The winter rains have been abundant up to this time, and will be good, sheep will be fat and mutton will bring good prices; therefore sheepmen have every reason to congratulate themselves, notwithstanding the tariff "bogle man."

We venture the assertion that good Spring wools will bring as much on the average in 1893 as they did last Spring, and if such proves to be the case the wool producers will have no cause to worry over tariff matters. At the present writing it seems very probable that we shall have no extra session of Congress this Spring; therefore there is no reason to apprehend any disastrous wool legislation for 1893. It is true the wool jobbers, dealers and manufacturers will all agitate tariff and make "legislative uncertainties" a pretext for still lower prices; but if it were not tariff it would be something else to the same end, and as we said before, prices are about as low as they can be for inferior stock. Therefore, we don't see any reason why they should be lower this year or why the growers of choice wool should be disheartened. On the contrary, we hope that altogether the year 1893 may prove, if anything, as profitable for the wool and mutton interest as was 1892.

State University Notes.

A Reno correspondent to the Carson Tribune furnishes the following State University notes:

In spite of all difficulties, a football club, consisting of two teams and substitutes, has been formed at the University.

The class of '93 has organized itself into a society. The members intend having a class color, a class motto and a class yell.

The members of the Adelphi Society have adopted a program different from that hitherto followed. One Friday night in each month will be social night, another literary night, a third will be court night. On the last named night they will have a trial. The members will be lawyers, prisoners or some one of the necessary persons. The first trial will be for the murder of a cat.
